Dear Dr Francesco

Feb 20, 2020

Re: Singapore Society of Ophthalmic Plastic & Reconstructive Surgery

Greetings for 2020.

It gives me great pleasure to formally announce the formation of the Singapore Society of Ophthalmic Plastic & Reconstructive Surgery. An informal organization of like-minded Oculoplastic Surgeons of Singapore since 2013, it was officially registered as a Society in 2017 with Dr Choo Chai Teck, Singapore National Eye Centre elected as the Founding President.

SSOPRS members are Fellowship-trained Oculoplastic Surgeons from academic institutions and private practices in Singapore who have voluntarily joined for a common and greater good. Common goals of the society and its members are to serve as a representative subspecialty professional body, foster regular patient-centric clinical and scientific discussions related to the field, help formulate professional practice guidelines, improve professionalism & comradery amongst its members as also quality of care in Singapore and the region, and to provide a platform for both formal and informal exchanges between SSOPRS and other national and supranational OPRS Surgery societies globally.

For more details, please visit our society website at **www.ssoprs.org**.

Looking forward to a great and longstanding interaction between our societies. Please feel free to contact us if we can provide additional information.

Best regards

A handwritten signature in black ink, appearing to read 'G. Sundar'.
