# Ocular and periocular malignancies: incorporating radiotherapy in multimodality treatment

---

The objective of this new event hopes to share expertise and best practice in invasive and non invasive management of ocular and periocular tumours with emphasis on malignant disease. The main focus will be on radiotherapy, but the event will also provide perspectives from other healthcare professionals involved in the management of ocular and periocular tumours.

Who will benefit from this event?

- Radiotherapy: Consultant/Registrar Clinical Oncologists/ Radiation Oncologists/ Therapeutic Radiographers/Medical Physicists/Dosimetrists
- Oculoplastic surgery: Consultant/Registrar
- Other clinical specialties – healthcare professionals involved in the management of ocular tumours (e.g. ophthalmologists, radiologists, optometrists, orthoptists, nurses etc.)
